Building & Sustaining the Music Therapy Practice You Want

Schedule your 30 Minute Consult at the Conference only rate of $25 on the Conference Website. Remaining time slots may be filled on a space-available basis at sign-in. We encourage signing up in advance to help all of us learn the best ways to provide additional resources like these as part of your Association Membership.

This is a terrific opportunity to talk with an expert about ways to develop the healthy music therapy practice that you want. When signing up, please fill out this short form and bring it with you, or email it to david.themcguffin@gmail.com with “SER-AMTA Consult” in the subject line:

______________________________________________________________________ : Name
______________________________________________________________________ : Location address
______________________________________________________________________ : Mailing address (if different)
______________________________________________________________________ : Phone (Work/Cell)
______________________________________________________________________ : Email
______________________________________________________________________ : Employer
______________________________________________________________________ : Position
______________________________________________________________________ : Duties/Responsibilities
______________________________________________________________________ : How long have you been in this field?
______________________________________________________________________ : How long do you see yourself in this field?

*On opening the conversation, David says: Your experience is probably similar to many professionals, i.e. busy and juggling multiple tasks. Like them, you may have a range of concerns but are also generally proud of the effort and quality of work you and your colleagues deliver. In short, you’re doing everything right.

My question is simply this: Are you doing the right things? 

David Condon, The McGuffin Group

- □ Patient/Client Srv/Rltns
- □ Busn/Strategic Planning
- □ Succession Planning

Are there any other topics you’d like to discuss regarding professional or career development or about growing, protecting, or sustaining your practice?

David is incredibly skilled at making complex processes seem simple and undaunting. His diverse expertise, including insurance, law, nonprofit leadership, and business development, have helped us consider angles and options we otherwise may have overlooked. His guidance has helped our organization grow and serve our community with confidence for years, and I am so glad to have David in our corner!
